

# EZRackPLC Meets IIoT

Winner of the  
Machine & Embedded  
Control - PLCs Category  
Voted by Thousands  
of Control Engineers

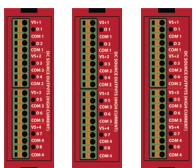

## Applications

- Industrial PLC Control
- Industrial IoT Gateways
- Edge of Network Monitoring & Control
- Productivity Monitoring
- Machine Health Monitoring
- Data Acquisition
- Remote I/O
- IIoT & M2M

## Pricing

- Fully Loaded CPU with MQTT Sparkplug + 3 Base Rack for **\$248**
- 16 Pt. Digital I/O Module Starts at **\$49**
- 12 Pt. Analog I/O Module for **\$199**

Software

## Features

- Sparkplug B Enabled for Connectivity to Inductive Automation Ignition Platform
- Edge-Gateway Controller with Effortless Connectivity to Protocols such as EtherNet/IP, Modbus RTU and TCP/IP Master/Slave Communications
- MQTT Protocol Enabled
- Store & Forward Feature
- Redundancy with Primary Host ID
- PLC Ladder Logic Control
- Real-time Data Acquisition
- USB Data Logging
- Advanced Math Function Blocks
- Auto-tuned PID
- Data Security with TLS/SSL Encryption & Username/Password Authentication
- Analog I/O
- Digital I/O
- Specialty I/O
