

EZ3 Series 6" TFT Sunlight Readable

(Great Replacement for PV 500, 600 with DH+ & needing Sunlight Readability)

EZ3 Series Touchpanel feature:

- 800 NITs, 75K Hrs @ 55°C
- 320 x 240 screen resolution
- 5.7" diagonal color TFT
- Patented HMI on-line edit, No downtime
- Tiny EZminiWifi installed on the HMI allows Laptop to program HMI from 400 ft. away. \$49
- Only HMI that can still talk to AB's DH+
- EZTouch EZ3 HMIs have real time access to process data stored inside the HMI or the USB drive and the micro SD using AVG File Manager utility.
- EZTouch EZ3 HMIs in a plant or multiple plants have the capacity to be monitored using EZPlantview software.
- Best looking objects and animation with 65K colors.
- Most Rugged 0.090" thick anti-glare touch screen.
- Unicode for multiple languages.
- Easiest Programming Software, design time in hrs not days.
- Full Project simulation on your PC.
- "C level" scripting and logic expressions.
- Data-logging, Recipes, Emails, USBs. Free Chart recorder.
- Most advanced Alarm management and logging.
- On-Screen Recipe Edit.
- Every model Fully Loaded, No "R" Reduced Features models.
- Remote Monitoring and Control, Smart phones & Ethernet.
- Communicate to all PLCs, including DH+ & Ethernet IP.
- Dual PLC Drivers with automatic tag conversion.
- Mfr. cost reduction & IP protection for qualified customers.
- Unique Visibility tag for best screen space utilization.
- Pass-through programming for all PLCs.

EZ3 Series 10" TFT Sunlight Readable

(Great Replacement for PV 1000, 1000E with DH+ & needing Sunlight Readability)

EZ3 Series Touchpanel feature:

- 1000 NITs, 75K Hrs @ 55°C
- 800 x 600 screen resolution
- 10.4" diagonal color TFT
- Patented HMI on-line edit, No downtime
- Tiny EZminiWifi installed on the HMI allows Laptop to program HMI from 400 ft. away. \$49
- Only HMI that can still talk to AB's DH+
- EZTouch EZ3 HMIs have real time access to process data stored inside the HMI or the USB drive and the micro SD using AVG File Manager utility.
- EZTouch EZ3 HMIs in a plant or multiple plants have the capacity to be monitored using EZPlantview software.
- Best looking objects and animation with 65K colors.
- Most Rugged 0.090" thick anti-glare touch screen.
- Unicode for multiple languages.

EZTouch Original 6" TFT Sunlight Readable

(Great Replacement for PV 550, 600 with DH+/RIO & needing Sunlight Readability)

EZTouch Original feature:

- 800 NITs, 75K Hrs @ 55°C
- 320 x 240 screen resolution
- 5.7" diagonal color TFT
- 128 Colors
- Patented HMI on-line edit, No downtime
- Only HMI that can still talk to AB's DH+/RIO, DeviceNet, MB+, Siemens with Profibus and Mitsubishi with CCLink
- Best looking objects and animation.
- On-Screen Recipe Edit.
- Remote Monitoring and Control
- Communicate to all PLCs, including DH+/RIO.
- Dual PLC Drivers with automatic tag conversion.
- Mfr. cost reduction & IP protection for qualified customers.
- Most Rugged 0.090" thick anti-glare touch screen.
- Fastest touch response time of any HMI.
- Unique Visibility tag for best screen space utilization.
- Unicode for multiple languages.
- Easiest Programming Software, design time in hrs not days.
- Full Project simulation on your PC. Custom start-up screen.
- "C level" scripting and logic expressions.
- Most advanced Alarm management and logging.
- Pass-through programming for all PLCs.
